

MEER BIBURG

UI/UX Designer

meerbiburg@gmail.com | 0349-0250467 | Karachi, Pakistan

PROFESSIONAL SUMMARY

User-centered UI/UX Designer with 3+ years of experience designing web and mobile interfaces for enterprise, SaaS, and e-commerce products. Skilled in translating complex workflows into intuitive, high-fidelity designs in Figma, from wireframing through developer handoff. Delivered 20+ client projects with consistently high approval. Google UX Design Certified.

PROFESSIONAL EXPERIENCE

UI/UX Designer — Koderlabs

Feb 2025 – Present | Karachi, Pakistan

- Design end-to-end user interfaces for web and mobile applications, including wireframes, interactive prototypes, and high-fidelity UI in Figma, ensuring consistency across design systems.
- Led UI/UX design for UccaptureIT, a U.S. government-facing platform serving construction companies registered with federal agencies, supporting evaluation workflows for 1,000+ vendor companies.
- Designed the PWin (Probability of Win) generation flow, enabling administrators to assess a vendor's performance and generate win-probability scores to guide hiring decisions.
- Designed the Win-Theme workflow, allowing admins to build a structured proposal strategy once a vendor's PWin score supported moving forward, streamlining a previously manual evaluation process into a guided, in-product flow.
- Collaborated closely with developers and product managers, and conducted user research to inform decisions, ensuring designs were technically feasible and translated smoothly from Figma into production.

UI/UX Designer — Evolve Systems

Sep 2023 – Jan 2025 | Karachi, Pakistan

- Created wireframes and prototypes for user-centered design solutions across web and mobile projects.
- Supported senior designers in improving user experience through iterative design and usability improvements, building foundational skills in design systems and collaborative product design.

Junior UI/UX Designer — WigaTech

Dec 2022 – Aug 2023 | Karachi, Pakistan

- Designed intuitive web and mobile interfaces for client products, translating business and user requirements into wireframes and high-fidelity prototypes.
- Partnered with cross-functional teams to align design solutions with user needs and technical constraints, improving handoff efficiency to development.

CLIENT PROJECTS

- Designed 20+ SaaS and e-commerce websites for independent clients, covering full UI/UX design from initial wireframes to final high-fidelity Figma prototypes.
- Achieved consistent client approval and positive feedback across projects by aligning designs closely with brand identity and end-user needs.
- Applied AI-assisted design tools (Claude Design, Lovable, v0) to accelerate prototyping and rapidly iterate on client concepts.

SKILLS

Design Tools	Figma, FigJam, Adobe Illustrator, Adobe Photoshop
AI Design Tools	Claude Design, Lovable, v0 (Vercel)
Core Skills	Wireframing, Prototyping, UI Design, UX Design, Auto Layout, Design Systems, Usability Testing, User Research, User Flows, Responsive Design, Design-to-Dev Handoff

EDUCATION

BS, Software Engineering — ILMA University, Karachi

January 2016 – March 2022
